CPC SHOWROOM UPDATED

Here at CPC we have been hard at work updating our showroom in the form of new kitchen displays. At the minute four have been added with others planned for the not too distant future. The four new displays on show are the Iowa Character Oak, Molise Oak, Novara 25mm as well as one made from the increasingly popular MFC doors. These displays also promote a few of the newest worktops, handles, sinks and taps we stock.

The show room is open, Monday to Friday, from 8:30am until 5:30pm; please feel free to drop in and take a look around.

Iowa Character Oak - Solid | Shaker with Beading | Prefinished | Rail Size 105mm

Molise Oak - Solid | Raised Center Panel | Rail Size 100mm

Novara 25mm - Solid | 25mm Shaker | Chamfer on Inside Panel | Rail Size 105mm

Hacienda Black MFC - Made from Egger MFC with 2mm PVC Edging

NEW TABLES & CHAIRS IN STOCK

While updating the showroom we also decided to bring into stock solid white oak tables and chairs. Closed, the tables measure 1600mm x 900mm and increase in size to 2000 x 900mm when extended. The chairs are leather and are available in three colours; black, brown and cream.

CONTRIBUTING TO FOCUS

If you have any stories, or other contributions, you would like to have included in 'Focus' please submit them by sending to danielle@cookstownpanel.com

Available in 300 & 400mm

NEW

Pull-out Baskets

Available in 300, 400, 450, 500 & 600mm

Le Mans Pull-out System

Perfect for any kitchen, the Le-Mans pull-out system reduces the need for unnecessary bending, lifting or reaching down into cupboards by bringing the shelves out to you when the door is opened, in a completely controlled and effortless movement. Available in left and right hand options.

- anti-slip coating stops items on the shelves from sliding around when the baskets are pulled in and out of the cupboard.
- Load capacity of each shelf is approx 20kg. That's the equivalent of 40 bags of sugar!
- Smoothly glides in and out of a cabinet.

Note: - The door must open to a 90° angle for the system to function properly. Thought must be given to the type of handle used on the door. Bulky handles may reduce the effectiveness of the door opening to 90°.

AND THE WINNER IS...

JEAN TOAL!

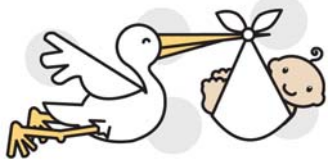

In our last edition we ran a competition, for a chance to win £50 worth of goods, by guessing the combined weight of one of our lorry drivers, Al, and his mini car. Thanks to everyone who entered and congratulations again to **Jean Toal** from **Douglas Toal**, Portadown, who was closest with a guess of 718kgs. The actual weight was 737.5kgs.

The Social Club goes Ghost Hunting

Our most recent social night out was a spooky one with us travelling to Richhill Castle where we encountered a few ghostly movements. It was quite an enjoyable night for every one who attended, with a few getting a little close and personal with the ghosts.

Some of the gang at the ghost hunting in Richhill Castle.

NEW ARRIVAL

Congratulations to **Chris Doris** who has had a new addition to his ever extending family with a baby boy called Liam weighing in at a whopping 9lb.

TAKE A SHINE ...

... TO EGGER'S NEW GLOSS MFC
